Instructions for completing Table B:

Table B provides a list of common materials that are recycled by industrial facilities in Ohio. Please indicate the unit of each quantity of material that is reported (pounds, tons, or cubic yards). Provide any comments related to each material, as necessary. Please do not report any liquid waste, hazardous waste, or construction & demolition debris.

The list in **Table B** is not all-inclusive. If your facility recycles a material that is not listed in **Table B**, please enter the name and quantity of that material on a line labeled “Other.” Some materials may not apply to your operation; simply enter “0” for those materials. Some of the materials are listed in broad categories. For example, “Plastics” include plastics #1-7, plastic films, etc. Please refer to the “**Materials Cheat Sheet**” attached to the end of this document for examples of materials and definitions.

If you do not currently track this information internally, your solid waste hauler or recycling processor may be able to provide it upon request. The Ross, Pickaway, Highland, Fayette Solid Waste Management District may also be able to provide you with assistance.

 - Any other solid waste that is recycled at your facility
-

Estimating recycling tonnages – if you are not able to obtain exact tonnages of materials recycled, there are numerous ways to estimate the amount of material recycled in any given year. Below are some common conversion factors that may assist you with your estimations:

MATERIAL TYPE	DENSITY (LB/CU YARD)
MIXED PAPER RECYCLING	484
BOTTLES & CANS	200
SINGLE STREAM RECYCLING	139
CARDBOARD	100

(size of container (in cubic yards) X number of collections per month X 12) X density (see table above)
= Total Pounds per Year

- 2,000 pounds = 1 ton
